Introduction

In February, 2011, The Superior Court instituted Veterans Treatment Court (“VTC”). The Delaware VTC is the first statewide program and the first to have both diversion and probation tracks.

The Delaware VTC is a collaborative effort by the Delaware Superior Court, the Department of Veterans Affairs, the Delaware Department of Justice, the Office of Public Defender, the Treatment Access Center (“TASC”), and Delaware Substance Abuse and Mental Health (“DESAMH”).

The Delaware VTC serves veterans throughout the state, including those charged with new offenses, those convicted and sentenced to probation, and those charged with violations of probation. Delaware veterans who qualify have the opportunity to participate in this innovative problem-solving treatment court which utilizes evidence-based practices to address the mental health and addiction issues that lead to involvement in the criminal justice system.

Based on drug and veterans treatment court models, the Delaware VTC works with veterans referred by various sources, including, the Veteran Justice Outreach Specialist, the Delaware Department of Justice, the Office of the Public Defender, judges, lawyers, community treatment providers and family members.

On diversion track, the veteran will have his/her charges deferred pending successful completion of VTC. If the veteran is offered diversion by the State, and accepts, he/she reviews and initials the police report setting forth the crimes the veteran is alleged to have committed. The veteran reports to the Court for status conferences on a regular basis to insure compliance with his/her individualized treatment plan. Once the veteran successfully completed VTC diversion, he/she graduates and the State dismisses the charges against the veteran.

On the probation track, if a veteran chooses to participate, the Court will modify the veteran’s sentence order to include Veterans Treatment Court. Once admitted, the veteran will be expected to report to Court for status conferences, comply with conditions of probation and adhere to his/her individual treatment plan.

Once the veteran successfully completes VTC probation, he/she can be flowed down to a lower level of community supervision or their probation can be discharged. The length of time the probation participant spends in the program varies, depending on the veteran's crimes, compliance with probation and adherence to their treatment plan, but will be at least 6 months.

To graduate from VTC, veterans on either track must comply with Court-ordered treatment and appear in Court for status hearings on a regular basis. Failure to comply will result in sanctions which can range from an admonishment to termination from the program. Veterans are expected to live in a stable environment, be gainfully employed if appropriate, and in compliance with treatment. Graduation may be expected to occur within 6 months to 18 months.

Mission and Goals

The Ten Key Components of Veterans Treatment Court

In 2011, The Delaware Veterans Treatment Court adopted with slight modifications the essential tenements of the U.S. Department of Justice Publication entitled “*Defining Drug Courts: The Key Components*”, (Jan.1997). There are key differences between Drug Courts, Mental Health Courts, and Veterans Treatment Courts. These *Key Components* provide the foundation for the successful operation of a Veterans Treatment Court.

Key Component #1: Veterans Treatment Court integrate alcohol, drug treatment, and mental health services with justice system case processing

Veterans Treatment Courts promotes sobriety, recovery and stability through a coordinated response to veteran’s dependency on alcohol, drugs, and/or management of their mental illness. Realization of these goals requires a team approach. This approach includes the cooperation and collaboration of the traditional partners found in drug treatment courts and mental health treatment courts with the addition of the Veteran Administration Health Care Network, veterans and veterans family support organizations, and veteran volunteer mentors.

Key Component #2: Using a nonadversarial approach, prosecution and defense counsel promote public safety while protecting participants' due process rights

To facilitate the veterans’ progress in treatment, the prosecutor and defense counsel shed their traditional adversarial courtroom relationship and work together as a team. Once a veteran is accepted into the treatment court program, the team’s focus is on the veteran’s recovery and law-abiding behavior—not on the merits of the pending case.

Key Component #3: Eligible participants are identified early and promptly placed in the Veterans Treatment Court program

Early identification of veterans entering the criminal justice system is an integral part of the process of placement in the Veterans Treatment Court program. Arrest can be a traumatic event in a person’s life. It creates an immediate crisis and can compel recognition of inappropriate behavior into the open, making denial by the veteran for the need for treatment difficult.

Key Component #4: Veterans Treatment Court provide access to a continuum of alcohol, drug, mental health and other related treatment and rehabilitation services

While primarily concerned with criminal activity, AOD use, and mental illness, the Veterans Treatment Court team also consider co-occurring problems such as primary medical problems, transmittable diseases, homelessness; basic educational deficits, unemployment and poor job preparation; spouse and family troubles—especially domestic violence—and the ongoing effects of war time trauma.

Veteran peer mentors are essential to the Veterans Treatment Court team. Ongoing veteran peer mentors interaction with the Veterans Treatment Court participants is essential. Their active, supportive relationship, maintained throughout treatment, increases the likelihood that a veteran will remain in treatment and improves the chances for sobriety and law-abiding behavior.

Key Component #5: Abstinence is monitored by frequent alcohol and other drug testing

Frequent court-ordered AOD testing is essential. An accurate testing program is the most objective and efficient way to establish a framework for accountability and to gauge each participant's progress.

Key Component #6: A coordinated strategy governs Veterans Treatment Court responses to participants' compliance

A veteran's progress through the treatment court experience is measured by his or her compliance with the treatment regimen. Veterans Treatment Court reward cooperation as well as respond to noncompliance. Veterans Treatment Court establishes a coordinated strategy, including a continuum of graduated responses, to continuing drug use and other noncompliant behavior.

Key Component #7: Ongoing judicial interaction with each Veteran is essential

The judge is the leader of the Veterans Treatment Court team. This active, supervising relationship, maintained throughout treatment, increases the likelihood that a veteran will remain in treatment and improves the chances for sobriety and law-abiding behavior. Ongoing judicial supervision also communicates to veterans that someone in authority cares about them and is closely watching what they do.

Key Component #8: Monitoring and evaluation measure the achievement of program goals and gauge effectiveness

Management and monitoring systems provide timely and accurate information about program progress. Program monitoring provides oversight and periodic measurements of the program's performance against its stated goals and objectives. Information and conclusions developed from periodic monitoring reports, process evaluation activities, and longitudinal evaluation studies may be used to modify program

Key Component #9: Continuing interdisciplinary education promotes effective Veterans Treatment Court planning, implementation, and operations

All Veterans Treatment Court staff should be involved in education and training. Interdisciplinary education exposes criminal justice officials to veteran treatment issues, and Veteran Administration, veteran volunteer mentors, and treatment staff to criminal justice issues. It also develops shared understandings of the values,

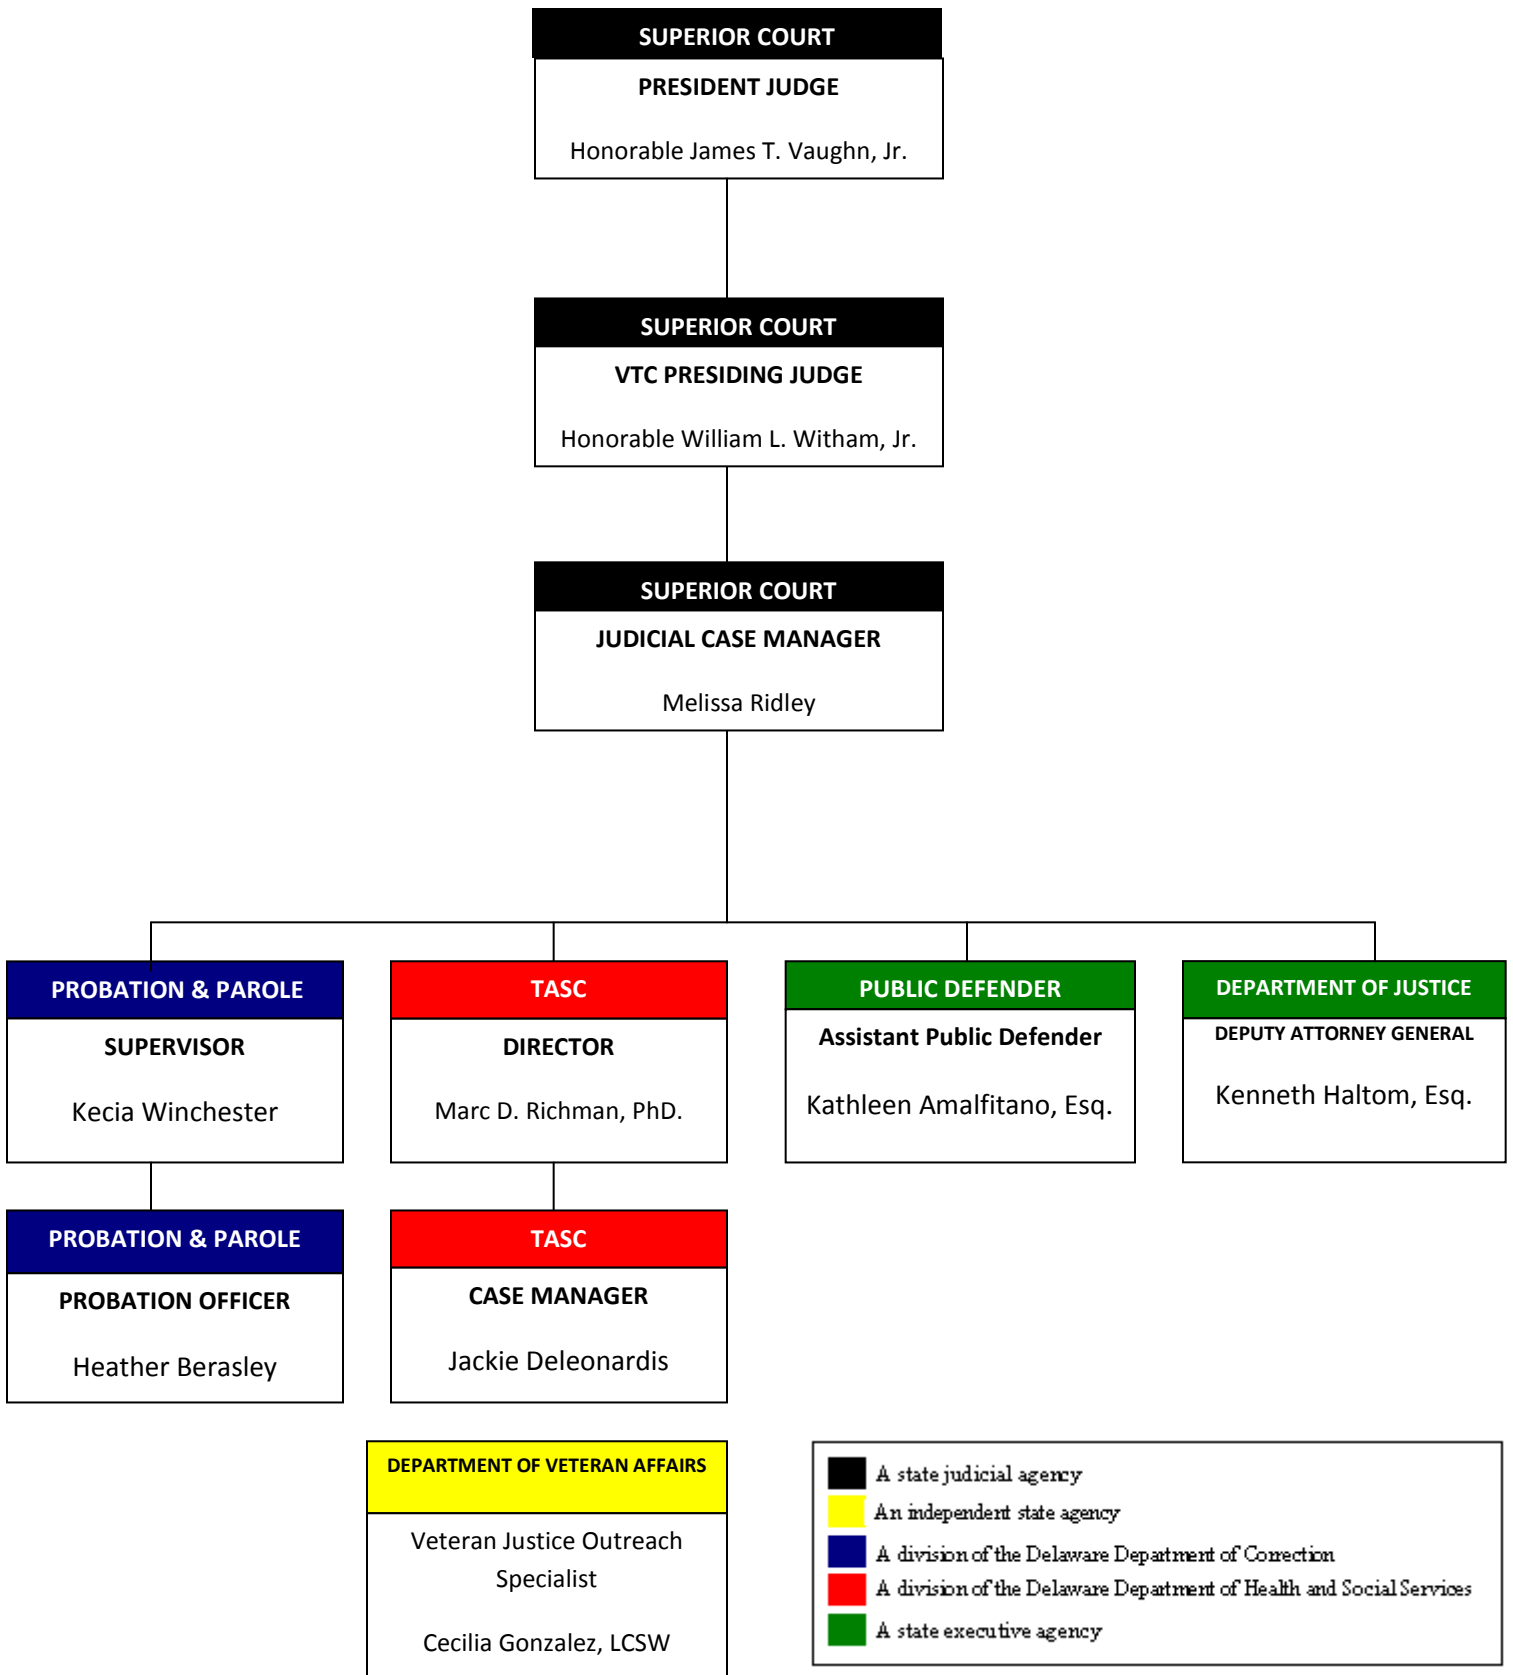

goals, and operating procedures of both the veteran administration, treatment and the justice system components.

Education and training programs help maintain a high level of professionalism, provide a forum for solidifying relationships among criminal justice, Veteran Administration, veteran volunteer mentors, and treatment personnel, and promote a spirit of commitment and collaboration.

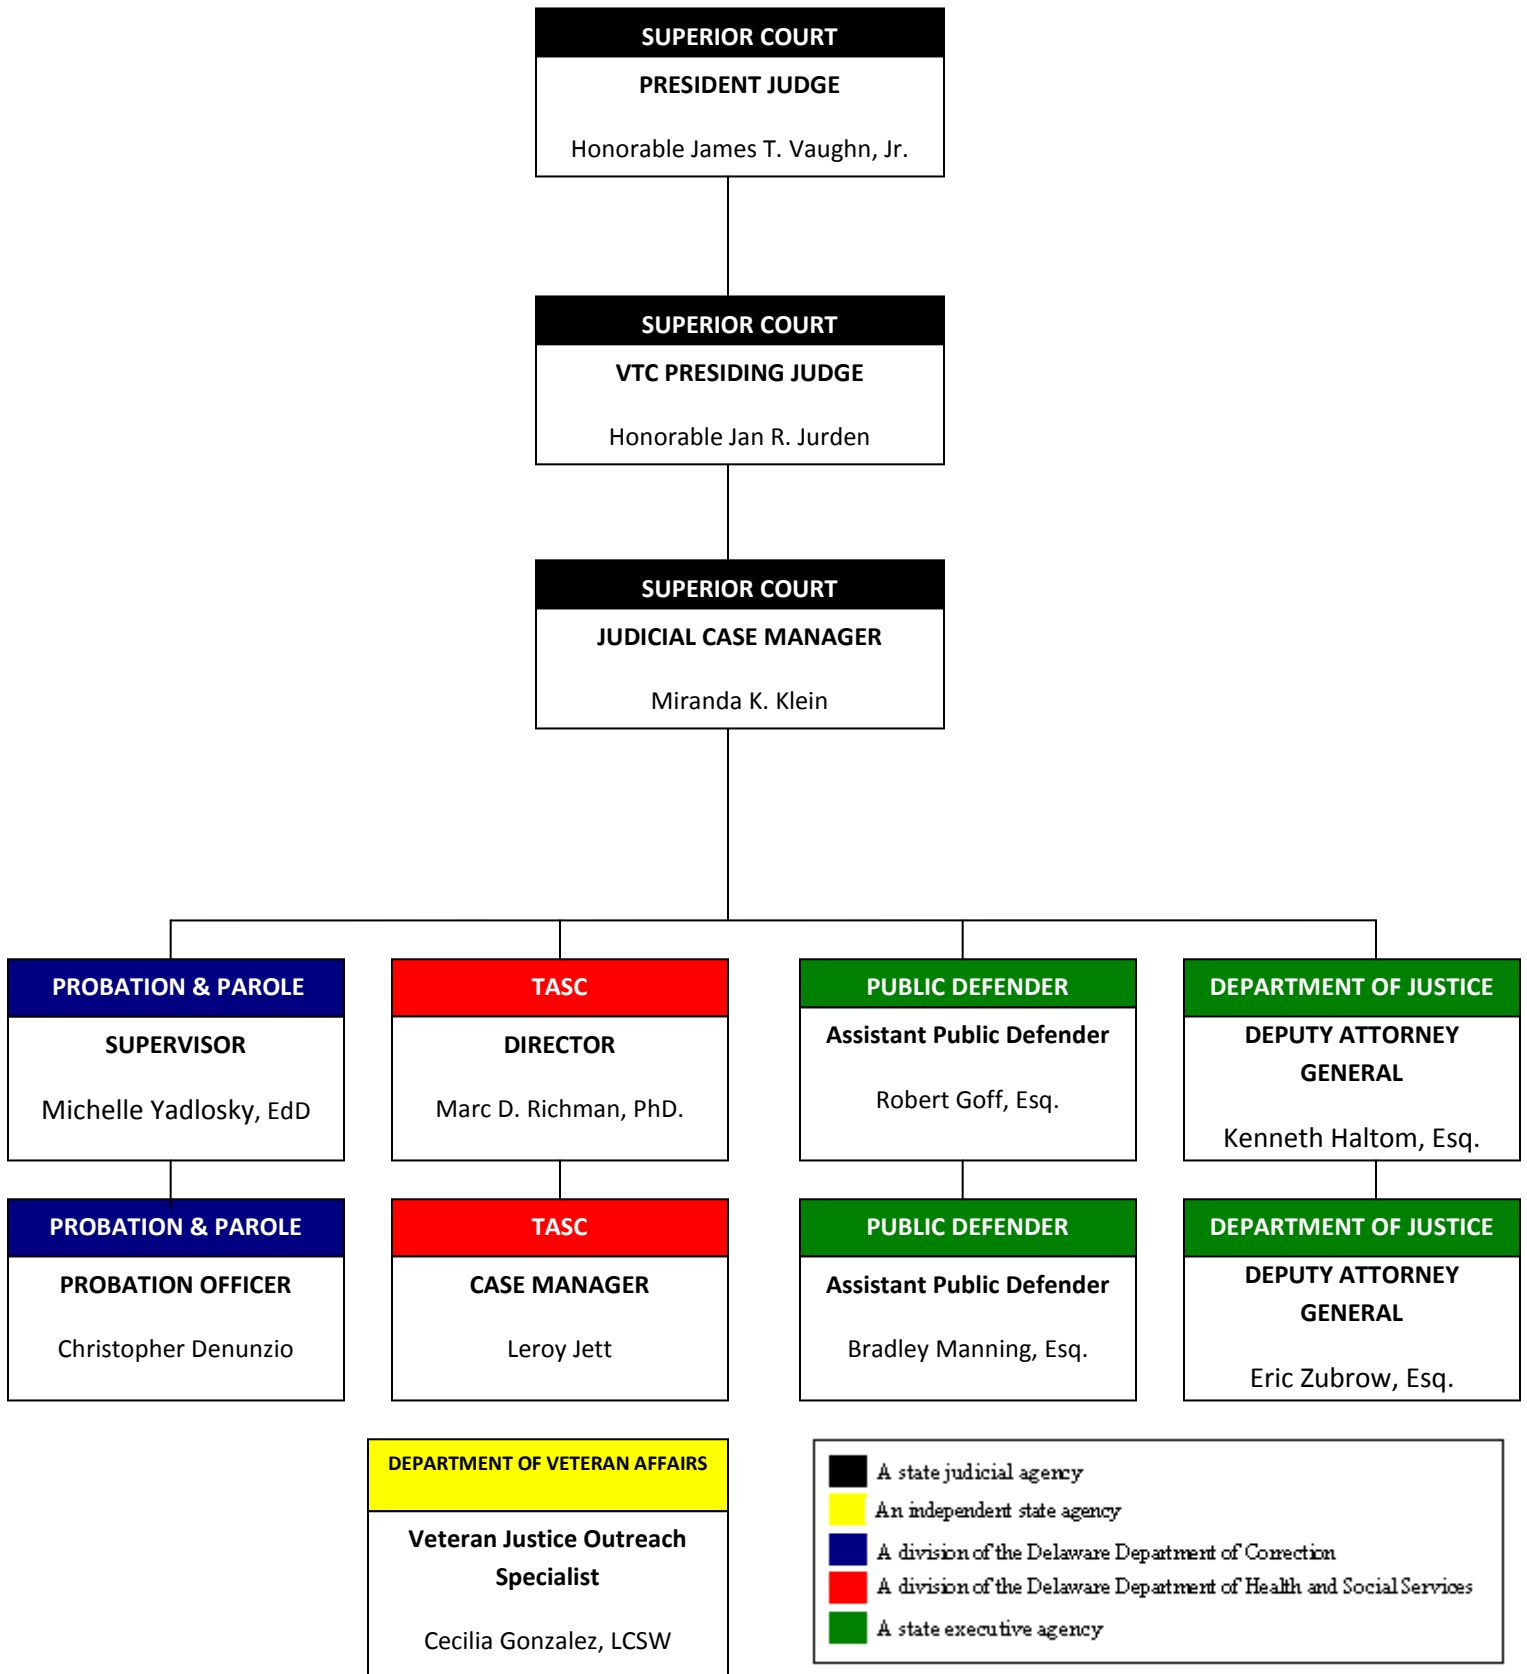

Key Component #10: Forging partnerships among Veterans Treatment Court, Veterans Administration, public agencies, and community-based organizations generates local support and enhances Veteran Treatment Court effectiveness

Because of its unique position in the criminal justice system, Veterans Treatment Court is well suited to develop coalitions among private community-based organizations, public criminal justice agencies, the Veteran Administration, veterans and veterans families support organizations, and AOD and mental health treatment delivery systems. Forming such coalitions expands the continuum of services available to Veterans Treatment Court participants and informs the community about Veterans Treatment Court concepts. The Veterans Treatment Court fosters system wide involvement through its commitment to share responsibility and participation of program partners.

Job Descriptions

A. Judge

The Judge presides over the Veterans Treatment Court. The Judge reviews Veterans Treatment Court Reports describing each veteran's achievements and/or compliance with conditions of the program. During status conferences, the Judge encourages veterans, and disciplines those veterans who are not in compliance by imposing appropriate sanctions.

B. Judicial Case Manager

The Judicial Case Manager is a Criminal Case Manager specifically assigned to the Veterans Treatment Court. The case manager's duties include: creating and managing all VTC calendars, files, reviewing status reports on all participants, and serving as a liaison between the Court and the treatment team, the various treatment providers and the various state and federal agencies (i.e. Department of Labor, Medicaid, Social Security Administration and Department of Correction, Department of Veterans Affairs).

C. Probation & Parole

The Probation & Parole Officers specially assigned to the Veterans Treatment Court have an interest and/or experience or expertise with justice-involved veterans. These officers' responsibilities include:

- (1.) Assisting in the selection of appropriate veterans by conducting background checks, obtaining criminal histories, mental health records and prison records, and conferring with the veteran's family members.
- (2.) If the veteran is at Level 4 (Work Release or CREST) or Level 5 (prison), coordinating release in conjunction with Level 4 and Level 5 institutional staff.
- (3.) If the veteran is not at Level 4 or Level 5, contacting current treatment providers for updated information and assessing compliance with program requirements.

- (7.) Providing status reports to the Court.
- (8.) Maintaining statistics for the Department of Correction.

B. Veteran Justice Outreach Specialist

Once a veteran is admitted to the Veterans Treatment Court, a Veteran Justice Outreach Specialist (“VJO”) is assigned to facilitate services for the participants in the program. The VJO’s duties include obtaining VA Releases of Information, determining VA benefit eligibility, identifying the needs of VA eligible participants, linking veterans to clinically indicated VA treatment and social services and communicating progress to the court. The VJO acts as the liaison between the Court, the veteran, and the Department of Veteran Affairs by collecting and providing the veteran’s status reports, including a summary of treatment, testing compliance with a treatment plan.

C. Treatment Access Center (“TASC”)

If a veteran is admitted to the Veterans Treatment Court, but is not VA eligible, a TASC case manager will be assigned to them. The TASC case manager schedules an initial appointment with the veteran. During the first session, the TASC case manager explains all program requirements to insure that the veteran understands what is expected. Together they review the VTC paperwork and the veteran signs the Release of Information Form, Case

Management Plan and confidentiality form. The TASC case manager administers a base line urine drug screen and gives the veteran a schedule of appointments and phone numbers to call in case of emergency. Depending on the severity of the veteran's needs and mental health issues, TASC will meet with the veteran weekly or bi-weekly.

TASC schedules additional assessments and makes referrals for whatever services are required, i.e. medical, psychiatric, social services, vocational, substance abuse, housing, etc. The TASC Case Manager monitors the veteran's progress and treatment requirements.

TASC consults with treatment and service providers specific to the veterans' needs on a regular basis to monitor progress and insure the veterans' participation in treatment. This information, in turn, is provided to the court in the form of a "Superior Court of Delaware Veterans Treatment Court Report." This report includes the veterans' progress, and any recommendations necessary to aid in the veterans' in successfully completing the program. The TASC Case Manager is responsible for monitoring the case until either the veteran successfully graduates or is terminated from the program.

D. Delaware Department of Justice

The Deputy Attorney General ("DAG") serves as the prosecutor for the Veterans Treatment Court. The DAG monitors veterans' compliance with program requirements and makes recommendations for modifications of the veteran's sentence, including conditions of probation and sanctions. The DAG also reviews veterans' cases when they have been recommended for graduation or termination from the program.

E. Public Defender

The Assistant Public Defender ("APD") assists the client and Court in determining whether an election to enter the Veterans Treatment Court is being made knowingly, intelligently, voluntarily and in the client's best interests. Throughout a client's participation, the APD assists the Veterans Treatment Court team in developing solutions to the special challenges presented by the client's mental health or substance abuse, while continuing to protect the client's legal interests. The APD encourages clients, notes their successes along the way, and, when

needed advises them on the legal ramifications of their failure to comply with their individualized treatment plan and supervision. Finally, the APD educates the client on the importance of compliance with prescribed medication and abstinence from illegal drugs and/or unauthorized prescription drugs.

F. Peer Mentoring

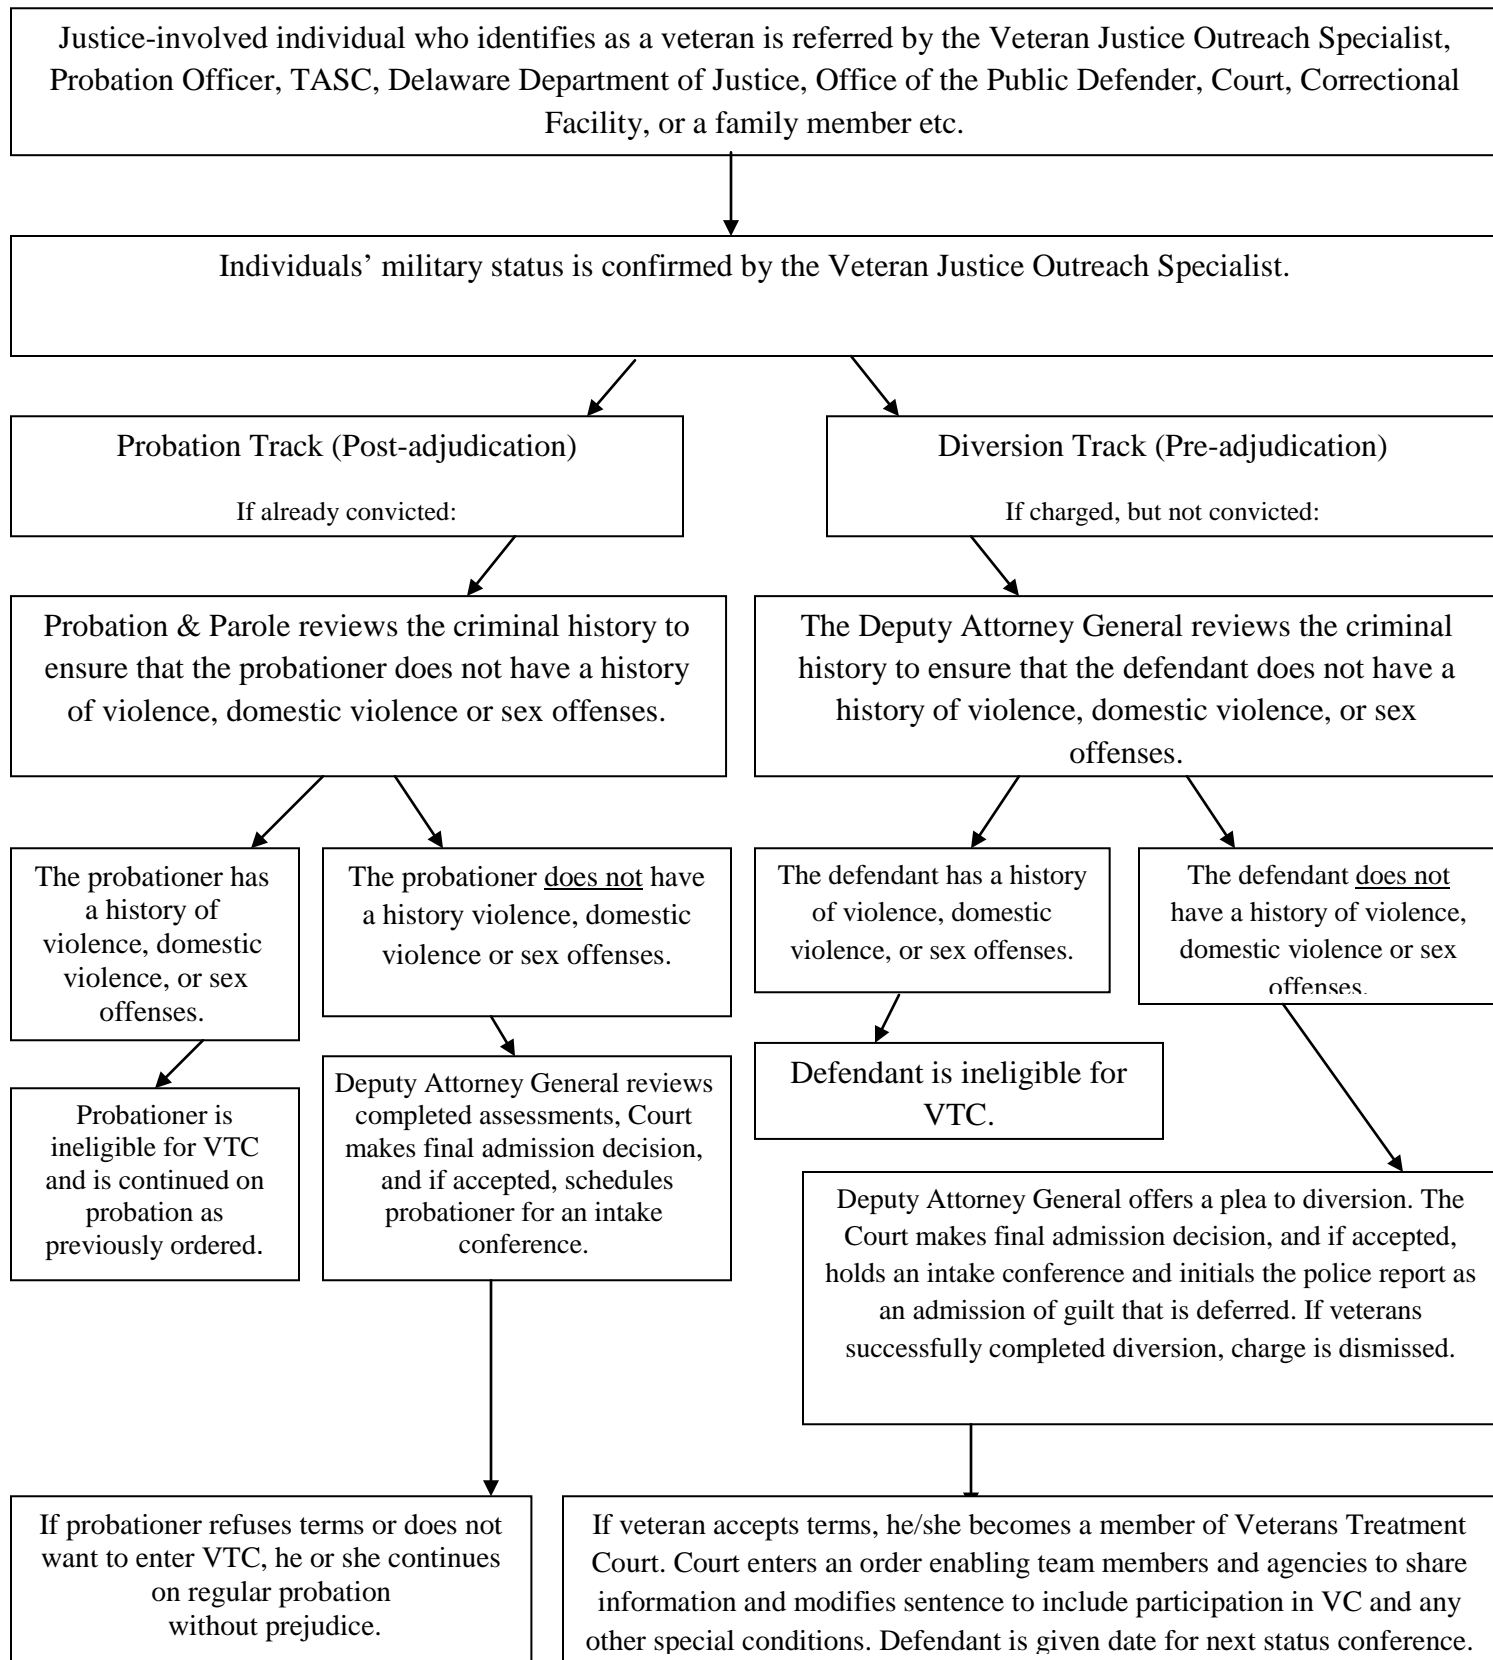

To support veterans through this court process, volunteer mentors, who are veterans or are currently serving in the military, work with the participants as advocates and role models. The mission of the volunteer peer mentors is to use their training and resources to pledge that no veteran is left behind. They are not counselors, but assist in ways the Court cannot. They are able to develop a close relationship with the veterans as they navigate through the Court and treatment. The peer mentors will be screened and trained in order to effectively be able to fulfill the duties and responsibilities of what is asked of them. Some of which include:

- (1.) Attending court sessions.
- (2.) Participating in and leading mentoring sessions.
- (3.) Being supportive and understanding to the difficulties the veterans are facing.
- (4.) Resolving any concerns the veteran shares regarding court procedures or the VA system.

- (4.) Complete all the required training.

MEMORANDUM OF UNDERSTANDING

Between the

DEPARTMENT OF VETERANS AFFAIRS, WILMINGTON VA MEDICAL CENTER

And

THE SUPERIOR COURT OF DELAWARE, VETERANS TREATMENT COURT

And

**STATE OF DELAWARE, DEPARTMENT OF TRANSPORTATION, DIVISION OF
MOTOR VEHICLES**

And

**STATE OF DELAWARE, DEPARTMENT OF SAFETY AND HOMELAND SECURITY,
OFFICE OF HIGHWAY SAFETY**

Background: Each year hundreds of veterans are charged with crimes in the State of Delaware. Many of these veterans have medical, mental health, and other problems including those related to their military service. Veterans, who are charged with a crime, often need rehabilitative services that are not otherwise available to them except through the Department of Veterans Affairs (“VA”). The Superior Court of Delaware has established a Veterans Treatment Court to work with the VA to divert select members of the veteran population who are charged with crimes away from possible incarceration and into appropriate rehabilitative programs. The Veterans Treatment Court operates as a part of the Superior Court of Delaware (“Veterans Court”).

Purpose: The purpose of this Memorandum of Understanding (“MOU”) between the Department of Veterans Affairs Wilmington VA Medical Center (“VAMC”), the Superior Court, the State of Delaware, Department of Transportation, Division of Motor Vehicles (“DMV”), and the State of Delaware, Department of Safety and Homeland Security, Office of Highway Safety (“OHS”), (collectively the “Parties”), is to provide veterans, whose drivers’ licenses have been revoked or suspended for violations including but not limited to operating a vehicle while under the influence of intoxicating liquor or drugs, the rehabilitative services required pursuant to 21 *Del. C.* § 4177D.

Authority: The VAMC has the authority to administer programs and provide healthcare to eligible veterans pursuant to Title 38 of the United States Code. The Veterans Court has the authority to operate as a unique Court pursuant to Art. IV, Sec. 7, Delaware Constitution,

10 *Del. C.* § 542. The OHS has the authority to approve the VAMC's evaluation and treatment programs as at least equivalent to the evaluation and treatment programs established pursuant to 21 *Del. C.* § 4177D. Usually, these treatment programs are provided by contracted DUI provider agencies upon referral from the Delaware Evaluation and Referral Program ("DERP"). The OHS, after review on a case by case basis will provide their approval of the VAMC's programs if appropriate. The DMV has the authority to accept OHS's approval of VAMC's evaluation and treatment programs as compliant for purposes of reinstating driving privileges for those veterans who successfully complete Veterans Court.

The Parties to the MOU agree as follows:

1. The Veterans Court will include judicial officials and staff from the Superior Court of Delaware, representatives from the VAMC, representatives from the Department of Justice, representatives from the Public Defender's Office, who will assist in the planning, development and monitoring of select veteran's referred to the Veteran's Court.
2. Veterans charged with violating 21 *Del. C.* § 4177 – Driving a Vehicle Under the Influence or with a Prohibited Alcohol or Drug Content – may be eligible to enter the Veterans Court when referred to the Veterans Court by the Department of Justice.
3. The Veterans Court is a voluntary program, which requires the veteran charged with a violation of 21 *Del. C.* §4177 to agree in writing during a hearing to enter into the Veterans Court.
4. The Veterans Court shall be responsible for having the referred veteran-defendant review and sign all necessary forms provided by the Veterans Court including those allowing the release of health information from the VA and/or the VAMC to the Veterans Court and to the OHS, and the referred veteran-defendant's charges released by the Veterans Court to the VA and/or VAMC. The Parties understand and agree that the veteran-defendant's consent to release information may be revoked at any time. The Parties further understand and agree that in the event the veteran-defendant revokes the consent to release information, the VA and/or the VAMC will be unable to provide any information to the Veterans Court pursuant to federal privacy laws.
5. The Parties will collaborate and cooperate for the purpose of developing and implementing necessary forms to be utilized to fulfill the requirements of the Veterans Court.
6. The VAMC shall provide a Veterans Court liaison who is responsible for:
 - a. Obtaining and scanning into the VA's Computerized Patient Record System ("CPRS") consents for release of information between the Parties for each veteran-defendant and verifying the validity of such release prior to any disclosure of information;
 - b. Appearing at Veterans Court docket to respond to court inquiries and assist with scheduling of treatment appointments;

- c. Providing treatment status reports to the Veterans Court on a regular basis as requested;
 - d. Assisting in rehabilitative services planning and placement for veteran-defendants;
 - e. Providing assistance to veteran-defendants with VA enrollment and eligibility determinations.
7. The OHS, if after finding that a veteran-defendant's treatment plan and status report satisfies the program requirements, shall also find that the VAMC's instruction and/or program of rehabilitation meets all the requirements of a contracted DUI agency provider and also meets all the requirements of the First Offenders Program (21 Del. C. § 4177B), if applicable.
8. The DMV agrees to accept OHS's approval of VAMC's evaluation and treatment programs as compliant for purposes of reinstating driving privileges for those veterans who successfully complete Veterans Court.
9. Further, DMV agrees to waive any reinstatement fees for those veteran-defendants who successfully complete their treatment plan and are approved by OHS.
10. The VAMC agrees to review and determine whether it has the ability to provide the veteran-defendant with the required instruction and/or program of rehabilitation mined necessary to meet the approval of the OHS.
11. The VAMC agrees to adopt additional required instruction and/or program of rehabilitation if determined necessary by OHS as long as such additional instruction and/or program of rehabilitation are consistent with the VA's standard of care. If the VA is unable or unwilling to adopt the additional instruction and/or program of rehabilitation, the Parties shall attempt to reach an agreement as to the proposed instruction and/or program of rehabilitation to be provided by the VAMC; however, if the Parties are unable to reach such agreement, the Veterans Court shall seek alternative providers for the veteran-defendant's required instruction and/or program of rehabilitation.
12. The Parties understand and agree that the VAMC will provide an assessment of a veteran-defendant and provide that assessment to the Veterans Court. The VAMC, under no circumstances, is able to perform an assessment on a veteran-defendant while that veteran-defendant is in custody. Further, neither the VA, nor the VAMC, will furnish hospital and/or outpatient care to a veteran-defendant, who is an inmate in an institution of another government agency if that agency has a duty to give such care and services. 38 U.S.C. § 1710(h); 38 C.F.R. § 17.38(c)(S).
13. The Veterans Court agrees that the referral for rehabilitative services shall be general and it is within the discretion of the VAMC to develop a specific treatment plan for each veteran-defendant which will meet the requirements of the instruction and/or program of rehabilitation as determined by OHS. The VA and/or the VAMC shall

provide rehabilitative services to the degree and duration needed in accord with the acceptable standard of care.

14. The Parties understand and agree that the VAMC may only provide rehabilitative services through programs and services the VAMC has available and to which a veteran is eligible and entitled to receive under federal law, and that the VAMC may be limited in its rehabilitative service options due to budget and availability of providers. The Parties also understand and agree that veteran-defendants participating in the Veterans Court may not receive priority over veterans who are not participating in the Veterans Court.
15. The Veterans Court agrees to work with OHS to locate alternative rehabilitative services options if:
 - a. The veteran-defendant is not eligible for VA care;
 - b. The VAMC is unable to provide rehabilitative services within the time frame mandated by the Veterans Court;
 - c. The VAMC is unable to provide rehabilitative services at the level mandated by the Veterans Court and/or OHS;
 - d. The VAMC is unable to provide treatment for any other valid reason.
16. The VAMC's ability to pay for care for a veteran-defendant at non-VA facilities is limited to those specific situations set forth in 38 U.S.C. §1703.
17. In order to assist in rehabilitative services planning, the Veterans Court agrees to provide the VA and/or the VAMC with the veteran-defendant's criminal history and current charges at the time of referral to the VA and/or VAMC.
18. The Parties shall not make any statements, representations, or commitments of any kind, to bind another party except as expressly provided herein or otherwise agreed to by the Parties in writing.
19. The person signing this MOU on behalf of each of the Parties confirms that they have the authority to execute this MOU on behalf of their respective Party.

Confidentiality of Veteran Records: The VA medical and acclaims records are and shall remain the property of VA and shall not be removed or transferred from VA except in accordance with 5 U.S.C. § 522a (Privacy Act), 38 U.S.C. § 5701 (Confidentiality of Claimants Records), 5 U.S.C. § 552 (FOIA), 38 U.S.C. § 5705 (confidentiality of Medical Quality Assurance Records), 38 U.S.C. § 7332 (Confidentiality of Certain Medical Records) and federal laws, rules, and regulations. Subject to applicable federal confidentiality and privacy laws, veterans or their designated representatives may have access to information from VA's records, upon request during normal business hours.

All individually identifiable health information shall be treated as confidential by the Parties in accordance with all applicable federal, state, and local laws, rules and regulations governing the confidentiality and privacy of individually identifiable health information, including, but without limitation, the Health Insurance Portability and Accountability Act of 1996 (HIPPA).

Independent Contractors: For purposes of this MOU, the relationship of the Parties shall not be construed or interpreted to be a partnership, association, joint venture, or agency. The relationship of the Parties is an independent contractor relationship and not agents, representatives, or employees of the other party. No party shall have the authority to make any statements, representations, or commitments of any kind or to take any action that shall be binding on another party, except as may be expressly provided herein or authorized in writing.

Liability: Each party shall retain all the rights and remedies available under applicable Federal and State laws.

WHEREAS, this Court may impose interim orders, or modify the sentence and conditions of probation arising out of the above-captioned criminal matter; and

WHEREAS, it may be necessary to evaluate the Defendant's protected healthcare information, educational, vocational rehabilitation, and correctional records in order to properly adjudicate this matter;

IT IS HEREBY ORDERED that upon presentation of this Order to any State of Delaware agency, hospital, school, organization, division or department of the State, doctor, nurse or other health care provider, treatment facility, psychologist, psychiatrist, police department, mental health clinic, drug or alcohol treatment provider, such agency shall permit the inspection and/or copying of any records, whether in electronic format or otherwise, relating to the above-captioned Defendant, without the consent of the Defendant.
